SSO Issue

Discussion: Changes to the report did not address the issue of having separate main line column and lateral column. Linda will bring it up and the next SSO User Group meeting. If it cannot be resolved, we will take it up on our November agenda.

Facility-at-a-glance

Discussion: The group agreed to only show five years of data (older data can be found in other reports) and Ann reminded the group that a decision to remove potential violations from the report and to create a separate report of dismissed violations. The group also asked to have the violation description added to the MMP and Facility-at-a-glance reports.

Wrap Up

Discussion: The group agreed to meet on October 24th and hoped I could prioritize the issue of potential violations.
